

Workshop 7 | UV index – measurement, modelling, communication

AGENDA

12:30	<i>Technical Check (presenters only)</i>	
13:55	Session opens	
14:00	Welcome and introduction to the workshop	Cornelia Baldermann Sebastian Lorenz
	Part I: State of the art of UV index measuring and modelling	
14:10	Overview of different UV index measurement methods	Ann Webb
14:20	Canadian UV Index modelling system	Yves Rochon
14:30	UV modelling for the Copernicus Atmosphere Monitoring Service	Zak Kipling
14:40	Combined measuring and modelling methods for area-wide UV index presentation	Axel Kreuter
14:50	Discussion - Research gaps - Recommendations for improvement	All
	Part II: UV index publication and modern communication methods	
15:15	SUNSMART - Global Solar UV App	Craig Sinclair
15:25	Communicating UV index in the UK	Katarzyna Baczynska
15:35	Discussion - Research gaps - Recommendations for improvement	All
15:55	Summary	Cornelia Baldermann Sebastian Lorenz
16:00	End of the workshop
